

INNOVATION

NO MORE
NO GOOD

ON MACHINE MEASUREMENT
“INSIGHT GAGING”

NC Gage + Statistics

Features of insight gaging

Human centric and Powerful

- 1. Easy to use teach-in
- 2. GD&T Support
- 3. Accurate measuring results
- 4. No more scrap: No more “no good”

Power of INSIGHT GAGING

NC Gage

Intuitive measurement functions
Macro programming – NOT Needed!
CAD/CAM Skill – NOT Needed!
Instruction Manual – NOT Needed!
Just follow the intuitive measurement guide...

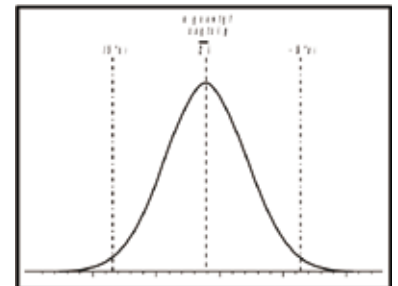

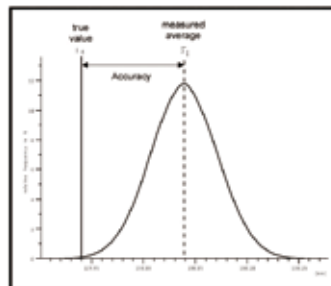

1. Teach in
2. Automatic programming
3. Simply click for Calculations and GD&T
4. Reporting

GAUGE CAPABILITY

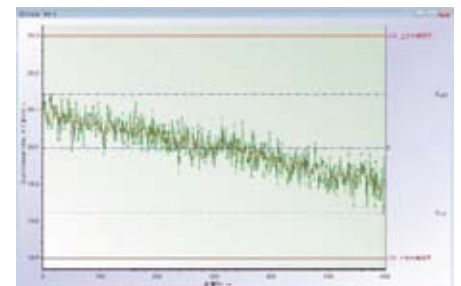

Evaluate the machine tool for measurement performance, like on a CMM, using gauge capability

Cg = Repeatability
Cgk = Accuracy

No more scrap: No more “no good”

Use statistics to analyze trends in measurement results.
Generate alerts from the system before tolerances are exceeded.
